

## Community Support – Claiming subsidy

---

Communities are required to complete an application for reimbursement when seeking payment of an approved subsidy. This form will be sent out with the letter conveying to the community the Trust's approval of the application.

All approved subsidy amounts are required to be fully drawn within 12 months of the notification of approval, after which re-application will need to be made – either for the whole approved amount or the amount remaining un-drawn and still required to complete the project.
