

Governance Policies – Planning and development interface

The Trust will maintain a close liaison with the Development Assessment Commission (DAC) in relation to planning and development issues in the outback out-of-councils areas.

It will provide comment on major proposals and keep itself fully informed on the issues being addressed by the assessment and compliance-monitoring staff of Planning SA.

Generally the Trust will seek to improve the way the planning process operates in its area, including a greater understanding and ownership of planning principles at the local level.

The Trust will not however shoulder more responsibility without accompanying resources.
