

Governance Policies – Press statements

Press statements from the Trust and any press comment on issues that effect the Trust and its area of administration will be made by the Chairperson or the Manager, where the Chairperson is unavailable or has first delegated the responsibility to the Manager.

The issuance and general content and style of press statements will reflect any guidelines developed within an agreed protocol between the Trust Chair and the Minister for State/Local Government Relations.

The Community Development Officer, the Infrastructure Manager and the Project Facilitator can provide background information and briefings if requested to do so.
