

Governance Policies – Volunteerism

At all times Trust financial and advisory assistance to communities will be provided in such a way as to encourage and support the important, on-going contributions made by volunteers in each community.

In seeking to provide essential services for and on behalf of communities the Trust aims to 'free up' volunteer effort and allow it to concentrate on projects that enhance community capacity and quality of life.

The Trust will endeavour to ensure that volunteers in its area contribute within a safe and healthy work environment.
